

## PRODUCT BRIEF

# JoomConnect Anywhere

Automate processes &amp; use JoomConnect with any website platform!

**No Joomla? No Problem!**

*Love your existing site? Not ready to switch to Joomla? JC Anywhere gives you ConnectWise Integration without revamping your website!*

Although we absolutely adore the Joomla CMS, we understand that there are cases where MSPs aren't in a position to revamp their site. JC Anywhere brings the ConnectWise

integration to virtually ANY website platform such as WordPress, Drupal, Squarespace, Wix, Sharepoint, and virtually any other website platform, including standard HTML sites.

If you are an IT Service Provider and utilize ConnectWise, why wouldn't you take advantage of JoomConnect?

**Compatible with JoomConnect Marketing Services!**

*Utilize the same great marketing services Directive and JoomConnect have to offer!*

As an MSP, we know there is little room for marketing during the normal day-to-day. With JoomConnect Anywhere, you can still utilize our **Ultimate** collection of marketing services, such as our **Ultimate MSP Blog Content, Printed and e-Newsletters, MailChimp Integration**, and social media services such as our **Ultimate Social Media Rig**. Most additional JoomConnect features will work such as **Quick Forms, Automation Templates, Landmines, Quick Capture**, and much more!

Breathe new integration into your existing website with JoomConnect Anywhere.

**JoomConnect Automation Templates**

*Get automated and get more out of your existing website with JoomConnect Anywhere!*

JoomConnect's feature list is enormous, and JC Anywhere delivers most of the same capabilities, including our Automation Templates, which let you easily create forms.

With Automation Templates you can:

- Create the Company in ConnectWise
- Inject Leads into ConnectWise
- Generate a Service Ticket to the service board of your choice
- Generate, assign, and schedule an Activities
- Create a Sales Opportunity, with products
- Assign the proper ConnectWise Marketing Campaign
- Apply Marketing Groups and Tracks, letting the user choose from a list of marketing groups and tracks to opt in to
- Create custom fields to gather specific information, such as text areas, radio buttons, or select boxes.
- Apply Marketing Groups and Tracks based on the answers users provide on forms.
- Create landing pages, event registrations, campaigns, specialized service requests and much more!

Remember, if you are looking for a brand new, dynamic website, check out our **Ultimate MSP Website Templates** or inquire about our **custom website design options!**

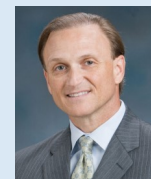

**Start automating sales, support, and marketing processes today:**
